### Testimonials received during the years of designing homes:

Mike McGregor in Spartanburg, SC:

*"When I moved in my house, there were no surprises. You showed me everything in advance on your computer in 3D and rendered views."*

Barry Bloch in Boynton Beach, FL wrote in a hand written thank-you note:

*"Dear Wolfgang, Thank you for all your help and your patience. It was a pleasure to work with you. Sincerely..."*

Howard Nelson in Ft. Pierce, FL in a hand written thank-you note:

*"Thank you for all your help – hope this all happens quickly from now on. We are looking forward to spending lots of time in NC"*

Harvey and Sally Harris, Lake Lure, NC:

*"Wolfgang's assistance greatly helped us to refine the structure of our boathouse and its design. His engineering background proved to be especially insightful when discussing the roof configuration, and deck. Thanks to Wolfgang's diligence and skill, our long awaited boathouse is, now, a reality!"*

Nancy and Dick Rummell, Lake Lure, NC:

*"When we decided to build our home in Lake Lure, we were still living and working in Ft. Myers, FL. Working with Dave Mathews and Wolfgang made the process almost painless. We flew in for several quick weekends to work on the design. Wolfgang was so professional, and very patient with us when we decided to change or re-arrange the design. He was always helpful with suggestions and sending e-mail 3-D designs. Wolfgang made the whole experience a pleasant one and we have a beautiful home with many thanks to him".*

Steve and Edie Hessberg, Lake Lure, NC

*"Wolfgang made the design process painless. His patience, skill and suggestions made it easy for novices like us to feel confident from start to finish. We had to complete much of the design long-distance and his software program made it possible for us to track and to make changes on the spot. Wolfgang's guidance was superb and his patience was endless. We started with a house design and ended up with a home. There is no better feeling than having it come all together as planned and dreamed. Wolfgang made that possible for us."*

Robert McCarter in Charlotte, NC :

*"These e-meetings are fantastic and a terrific tool to fast forward the process. Your client viewer helped us to look around in our future home at our leisure. I showed it to an associate of mine. He is ready to build a house soon. I will recommend your services to him."*

Eddie and Elizabeth Yountz in Lake Lure:

*"Building a new home is not for the faint hearted and is definitely a roller coaster ride! However, Wolfgang's help made it a lot easier. He was invaluable understanding our wants, needs and tweaking the design to ensure that the final plans were exactly what we had envisioned. We really appreciated his patience, professionalism and willingness to work so closely with us designing our new home. We would highly recommend him to anyone getting ready to design and build a new home."*

Pat & Angelo Grillo Lake Lure, NC:

*"On December 22, 2006 we moved into our new mountain home, which was designed by Wolfgang Richter and built by Dave Mathews. Working with Wolfgang made the design process much more comfortable and, I'm sure a lot less expensive. He responded to our requests with three dimensional drawings and many suggestions for improving upon the features that we wanted to see in our home. Since we were 700 miles away, we especially appreciated his ability to email us the 3D drawings and plans as PDF documents. This permitted us to see exactly how our house would look and also made it so much easier for us to interact with the builder. We would highly recommend Wolfgang's services to anyone planning to build a custom home."*

Carole McKay, Lake Lure, NC  
(extensive home addition)

*"Working with Wolfgang was a delight. Although I was experienced in remedial drafting, he offered suggestions that proved very beneficial. He was well prepared from our first meeting onward and produced our plans and revisions in a timely manner, and was helpful in securing additional sets of prints. I was very happy with the overall process."*

Ed and Kathy Higbee, Lake Lure, NC:

*"As My wife Kathy and I near the final completion of our beautiful home in Apple Valley, Lake Lure, we wish to take a moment to reflect back through all the planning and help that you have provided to us. From the initial help in selecting the final custom design that you were able to piece together from numerous models, through the actual design that provided the necessary function that made it come alive, including your ability to work with us via "e-meetings and client viewer" which gave us the ability to modify via internet between you in North Carolina and us in Florida to your coordination with our builder; the help of a friend was always there. Our home has developed from a dream to reality, without your professional and personal help we feel could not have happened so smoothly. Once again, thank you, and we look forward to seeing you again (as a neighbor in Lake Lure) very soon."*
